

14th June 2024

Dear Parents/Carers

THEME WEEK

As part of our commitment to providing enriching and diverse learning experiences for our children, we are excited to plan a Theme Week next year centred around exploring different countries from around the world. This initiative is aimed at fostering curiosity, understanding, and appreciation for various cultures, traditions, and customs.

During this Theme Week, we aim to immerse our children in a range of activities that delve into the unique aspects of different countries. This will include learning about the cultures, stories, music, famous landmarks, and geography of selected countries. We believe that this immersive approach will not only broaden our children's knowledge but also enhance their global awareness and appreciation for diversity.

To make this experience even more meaningful, we would like to involve our school community in the selection of countries to focus on during the week. We are keen to choose countries that have special significance to our children and families. Therefore, we encourage you to share any personal connections or links you may have to different countries that could help us in making our selections. Please complete the link table overleaf and return to school as soon as possible.

Furthermore, we would welcome your input and contributions to the planning of the Theme Week. If you have any resources, stories, artefacts, or experiences related to a particular country that you would be willing to share with us, we would greatly appreciate your involvement. Additionally, if you have expertise in or knowledge about a specific country and would be interested in speaking with our children about it, we would be thrilled to arrange a session for you to engage with our children.

We believe that by working together as a school community, we can create a truly memorable and educational experience for our children. Thank you for your continued support

Yours sincerely
